

THE WORLD OF WHEAT  
OF TARIFFS

During the depression years world trade declined by 90 percent and Canadian trade declined in about the same proportion. Canada's wheat exports fell from 407 million bushels in 1929 to a low of 196 million bushels for the year 1934. These smaller sales piled up unsold surplus wheat which were 91 million bushels in 1929 to 303 million bushels in 1934. These unsold surplus wheat brought heavily on the market and reduced price as was to be expected, from an average of \$1.24 a bushel for the year 1929 to an average of 81 cents a bushel in 1934. So it will be observed that as sales declined surplus wheat increased and price in consequence decreased. All this seriously reduced the farmer's income; but tariffs also reduced the purchasing power of that smaller income because the cost of the things farmers had to buy steadily increased. It would appear, then, that there is nothing so important for the future welfare of our farmers as to have our Canadian tariffs sharply reduced.

## TWELVE CLUBS AND BOY DEALT BEISERER WOMAN

A most perfect haul of bridge was dealt Mrs. Wilson Parker during a game at the home of Mr. and Mrs. Frank Schmalz last Sunday evening.

She held 12 clubs and the ace of spades. Only the seven of clubs was missing to complete the suit. Marcel Berleau, member of the Beiserer branch of the Royal Bank dealt the hand. Eight others were present to verify the fact.

Farmers' Meeting  
Well Attended

There was a large gathering at the meeting held in the Scott hall on February 4th. The seats were well represented but there were just a few from the north as they were mostly snowbound. The speakers were delayed for an hour so a short meeting was held while waiting for them. It was decided to secure Layton again this year for the members as this is a saving of ten percent. Put in your orders now to Ed Oshauer as he must have the orders immediately. Len Sherring, the district president gave a short talk on amalgamation and organization. Mr. Bell, district agriculturist, arrived about 9 p.m. and informed the meeting that Mr. Hoffman had missed the train in Edmonton and would not be present. This was a big disappointment to the children as he was to have brought the picture show.

Mr. Bell gave a short talk and illustrated with slides on home beautification and showed what could be done in a few years with trees, plants and shrubs. He also said that the time was right now for all the farmers to get together

and organize into one big unit. He introduced J. Umbetto of Three Hills who is the field supervisor for the Kneeshill Municipal district who gave a short talk and said he would be in Carbon again on February 21st with a show given by the National Film Board and sponsored by the municipal council. Mr. Bell also introduced Mr. H. Lewis who is a Carbon settler but now resides in Drumheller. He is the field supervisor for the Maryrin district. He gave a short talk on horticulture.

We wish to thank all those who supported this meeting. The next meeting will be on March 4th and meetings will be held on the first Monday of each month unless otherwise advertised.

Referring to the item in last week's paper about the writer losing snowbound and late with this report, I would like to state that I am snowbound. The roads north are dreadful but we hope to have some relief from this during the coming week with Johnny Chinoak showing up and our snow equipment just in time and ready to go so it can't be too long now when we can get to town without wearing out a shoe.

Clara Cayo, Sec.

## LOCAL NEWS

★ There will be a meeting of the Carbon Branch, Canadian Legion on Monday next, February 18th.

Mrs. R. H. Greenlee of Botha returned to her home after spending the past two weeks at the home of her son and daughter-in-law, Mr. and Mrs. H. Greenlee.

## CHRIST CHURCH SERVICE

There will be a service in Christ Church on Sunday, February 17th at 11 a.m. Rev. C. J. Brown, Diocesan Chaplain to Discharged Personnel will be in charge.

★ A "Welcome Home" to veterans will be held in the Scott hall on Friday, March 1st. It is suggested that accommodation will permit attendance at the banquet by invitation only. However the program following will be open to the public.

Mrs. Isabelle Goudie was a weekend visitor to Carbon.

Staff Sgt. R. E. Gerdin is a recent arrival from overseas.

LAC Don Martin is spending a few days here in Carbon.

Henry Trumbley, Calgary, is a Carbon visitor this week.

★ At the Scott hall next Thursday, Feb. 21st, an outstanding technical color, "Lady in the Truck."

Best Charlade was a lucky winner of a fountain pen in the raffle held by the Bonnyville A.F. U. proceeds which were used to procure a projection machine for the A.F.U. lodge.

You should have seen Johnny Wong and Chai. They were blindmans bluff in the field, with their cars during Saturday noon.

This week's Chronicle, besides giving a day late is a little on the "Johnny" side, the result of the editor participating in the local hospital. We hope to be back to our regular edition next week.

Pred Sailer's auction sale will be held on Tuesday, February 26. Terms cash. Wright and Boese, auctioneers.

Fred Watts auction sale will be held at his farm 10 miles west and two miles north of Ames on Thursday, February 28. Terms are cash. N. Boese, auctioneer.

The curling rink skipped by Len Paxon won the H.G. Gracie competition at Drumheller hospital last week.

## OBITUARY

## RUDOLPH BROST

The death occurred on Monday, February 4th of Rudolph Brost, 34, at his home, 607 1/2 St. N.E., Calgary. Mr. Brost was a member of Brigant Baptist church.

He is survived by his wife, Louise, his sons, Frederick, Ernest, John, Carlton and Edward and David, both of Parkston.

Funeral services were held on Wednesday last in Brigant Baptist church, Rev. R. Kern officiating. Burial followed in Queen's Park cemetery. Jacques Funeral Home were in charge.

## BEISERER RED CROSS HAS SUCCESSFUL YEAR

Beiserer Red Cross Branch held its annual meeting recently and reported a successful year. Cash receipts during 1945 totalled \$1430 and with a balance of \$257 from 1944, made a grand total of \$1687. Expenditures were \$1619 of which \$1800 was for contributions made to the Alberta headquarters.

The full slate of officers was re-elected, as follows: Mrs. A. A. White, president; Mrs. H. C. Gibson, first vice-president; Mrs. Emil Gramme, second vice-president; Wilton Parkes, secretary-treasurer; conveners, Mrs. Frank Loust, sewing; Mrs. H. C. Gibson, social, and Mrs. M. A. Bettin, publicity.

A large volume of sewing and knitting was done during the year.

24 Rinks at  
Local 'Spiel

Carbon's annual hospital got under way on Monday morning of this week with 24 rinks participating. Competition was keen and many exciting games were witnessed. Ken Lee, which held all through the 'spiel added to the enjoyment of the game.

Following is the list of the winners at press time:

**Peering Local Competition—**  
Schlieke beat Halstead; Wright beat Shantz; Benant beat Stone; Rockford; Atkinson beat Gibson; Swailbeat; Mackay beat Schnitzel; Beiserer; Ross beat Ruppel; Rockyford; Caning beat Dunsun; Rockford; Newman beat White; Goe, Swailbeat; Pool; Longstaff; Swailbeat; beat Garrett; Woodland; Swailbeat; beat Paxon; Priole; Ames; beat Gerdin; Newman beat Wright; Goe beat Caning; Mackay beat Benant; Schlieke beat Gerdin; Woodland beat Longstaff; Schlieke beat Caning; Ross beat Mackay.

**Ontario Laundry Competition—**  
Newman beat Dunsun; Pool; beat Stone; Benant beat Garrett; Ruppel beat Schlieke; Woodland beat White; Benant beat Mackay; Ross beat Atkinson; Shantz beat Longstaff; Goe beat Paxon; Priole beat Caning; Schnitzel beat Priole; Pool beat Ruppel; Woodland beat Gibson.

A complete list of the winners in all competitions will be published next week.

## JOHNNY HOME

Two ways a veteran, as a former member of the RCNVR, and a practiced performer in radio, Austin Willis plays the part of veteran Johnny Home in the CBC's weekly comedy serial, "The Johnny Home Show" on Fridays at 8:00 p.m.

You can deny the truth but you never can defeat it.

Whether you run them or just patronize them, black markets have a black mark on anybody's character.

Nations that make it easy today will be shut most for aggressive tomorrow.

Peace demands a generalship as great, if not greater, than war.

If you fight for someone you won't fight with them.

Ed Wilson is back at work after spending a week in the hospital with blood poisoning.

Mr. and Mrs. Frank Ewing are in California where Mrs. Ewing is recuperating from a recent illness.

Gerald Murmuth returned from overseas recently.

Curling is going very hot in the new \$4500 rink.

Don't forget we have a new drug store in town.

## An Experiment in Collaboration

**DISSOLUTION OF THE** Combined Production and Resources Board and of the Combined Raw Materials Board at the beginning of the New Year has drawn attention to the important services rendered by these and other combined boards during the critical war years. It is expected that the Combined Food Board which was associated with the other two boards in the arduous and important task of distributing materials and supplies for the Allied armies, and also to the civilian population of the United Nations will be dissolved before the end of 1946. Formed early in the war, these organizations had their headquarters in the United States, and they represented a cooperative effort among nations which pointed the way to further efforts of this kind in the new peacetime economy of the world.

### Food Crises Were Averted

At the time the dissolution of the Combined Production and Resources Board was announced, they were described as "a novel experiment in economic collaboration, which unquestionably hastened the moment of victory." Their contribution towards the Allied victory included the working out of an equitable system of distribution for materials and supplies from the great offensives in North Africa and in Normandy. They also made a notable contribution in straightening out differences in specifications and other details which seriously delayed production in the early days of the war. In addition to arranging for military supplies, these combined boards averted many serious food crises in Allied countries by working out a system through which food was allocated among the nations according to need and availability.

### Has Applications For Peacetime

Some specialized committees of the combined boards are to continue to function through the reconstruction period, arranging for the orderly distribution of supplies until the balance between production and demand has been restored to normal proportions. Although the work of the combined boards is now almost at an end, they have shown the very practical value of such international co-operation and a continuation of their work is seen in the structure of such peacetime organizations as the United Nations Relief and Rehabilitation Administration, of the Food and Agriculture Organization, and of those bodies which are being set up to foster international co-operation in matters such as aviation and trade. It is encouraging to see that in this, as in many other fields, valuable lessons learned during the stress of war, are to be used to improve conditions in time of peace.

## How to Combat RHEUMATIC PAIN

Shoulder pain, backache, stiff joints, excess uric acid, a blood impurity that is attacked by the body's defense mechanism, is the cause of rheumatism. It is a disease that attacks the joints, muscles, and even the heart and kidneys. It is a disease that can be cured. Use Duda's Kidney Pills. Duda's Kidney Pills are the only medicine that cures rheumatism. See what Duda's can do for you. 137

### Noted Sculler

John Cotford, Old Resident of his youth, has Died.

John Cotford, 84, noted sculler in his youth and one of the last remaining links with the days of the crown colony of Vancouver Island, died recently at Victoria.

Mr. Cotford was born in Victoria Sept. 20, 1857. Two years after the first school had been established on the island and in the days when this city was a settlement of only about 500, nearly all of whom were employees of the Hudson's Bay Company.

He retired 30 years ago after many years as a hunter and sealing schooner sailing out of Victoria. He is survived by his sister, Mrs. Harriet McKay, mother of Mrs. John Hart, wife of the premier of B.C.

### MAKING CANNED MEATS

During the fiscal year 1944-45, a total of 95 establishments in Canada operated under the Meat and Canned Food Act and the Regulations governing the inspection of meat. These establishments were distributed by provinces as follows: Ontario, 23; Quebec, 25; Manitoba, 1; British Columbia, 9; Prince Edward Island and Alberta, 8 each; Saskatchewan, 5; and two in New Brunswick. Supervision was carried out by the Meat and Canned Food Section of the Health of Animals Division, Dominion Department of Agriculture.

### AGRIERS IN RUSSIAN

James F. Byrnes, United States Secretary of State, mastered the Russian expression "I agree" and used it frequently at the foreign ministers' conference in Moscow, notwithstanding the slight of his colleagues.

## PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and full information free. THE PATENT OFFICE, Registered Patent Attorneys, 273 Bank Street, Ottawa, Canada.

## Price Control And Rationing Information

Q.—Why is it so difficult to find good black pepper in stores? The pepper I buy now appears to have very little black pepper in it.

A.—Last year it was necessary to limit the pure black pepper content of extracted black pepper to 25%. The Wartime Prices and Trade Board recently announced an increase in the pure black pepper content of imitation black pepper from 25% to 40%, and a better grade black pepper will soon be appearing on the grocery shelves.

Q.—Do the preserves continue to expire on January 31?

A.—Orange colored preserves continue to expire on January 31 to P25, all unnumbered preserves continue to expire for special purposes on January 31.

Q.—I lost my ration book. What shall I do in order to get another book?

A.—There's a waiting period of 30 days during which time arrangements must be made to issue a temporary ration card. At the end of the waiting period the original book or the lost ration book must be replaced. Necessary, however, to make a statement or an affidavit before a lost book can be replaced.

Q.—Will my baby's ration book have all the coupons in it when it is received from the lost ration book?

A.—The ration book you will receive for your baby will only contain those coupons which were not from the time the application is made, so it is to your advantage to get the baby's book as soon as possible.

Please send your questions or your request for the pamphlet "Consumer's News" or the Blue Book in which you keep track of your rationing, to the nearest Wartime Prices and Trade Board office in your province.

## Northern Fish

To Investigate The Commercial Possibilities Of Great Slave

Scientific investigation of commercial fishing possibilities of Great Slave Lake is being carried out this year, the federal fisheries research board announced.

Last year's fishing operations at Great Slave Lake, the first undertaken on a commercial scale in the Northwest Territories, yielded a catch of about 1,500,000 pounds. Investigations made by the board in 1944 indicated the lake could sustain an annual production of about twice that size.

Dr. D. S. Rawson, of the University of Saskatchewan, who has directed the research at Great Slave (the board, will be in charge of the investigations.

Answer to Last Week's Puzzle

## Rather Chilly News

Specialist Says Sun Spots Are To Bring Colder Weather

Dr. R. S. Delany, Canada's No. 1 solar specialist, gave the sun spot situation a quick overview and came up with some chilling news.

Solar physicist at the Dominion Observatory in Ottawa, Dr. Delany said his charts indicate this weather for the future:

1. The remainder of this winter will be colder, with more snow than last winter, and each winter from now until 1948 or '49 will grow progressively more severe.

2. Next autumn will be cooler and wetter than last autumn and each summer through to 1948 or '49 will produce a little less heat and a little more rain.

For that and state of affairs

KNOW that man" asked a passenger, indicating a fellow traveler on the fourth deck of the Marigold.

"Sure," replied the news butcher, "that's the tax inventor."

"But what's his name?"

"Dunno," said the news butcher. "Nobody seems to know. He's more or less a mystery. They say he plans to do a world-wide business. We just call him the 'T.I.'"

"And is that his dog... that dark, white one with red eyelids and pale blue eyes?" asked the passenger.

"Yes," said the news butcher. "That's his dog. Name's Masterpiece, a queer number if ever I heard one. The two of 'em ain't on the boat any more than three minutes before the tax inventor will say: 'Now hide, Masterpiece, hide, and the dog curls up behind a deck chair or just disappears. A smart pup."

"Will, well," remarked the passenger. "That tax inventor looks interesting. Must have a talk with him."

"There's Masterpiece hiding now," said the news butcher, pointing. "He's just about to lie down behind that traveling bag on the starboard side."

"Only ship in the world powered by electric cells, the Marigold ran down stream in few wheeling. The motion of the ship recharged the tired cells just as a car battery is recharged on the road."

"There was no one at the wheel. The ship always fitted with the latest equipment, was travelling on a beam—a bent beam that allowed the ship to make the turns in the river."

"The smith is that part of the heavens directly overhead."

THE passenger walked toward the tax inventor who was leaning on the rail.

"A wonderful day," he said by way of getting started.

"Not bad," returned the tax inventor solemnly. "I was just figuring how it could be taxed."

"Then you're the tax inventor?" inquired the passenger.

"Inventor and consulting engineer," corrected the other. "I give a complete service."

He was a strange looking person, this tax authority. He wore a black overcoat with the collar turned up. On his head was black helmet hat. It was a little too large for him, almost touching his ears.

The man's face was a putty white. His eyes were partly hidden by dark glasses. His nose was flat and his mouth was small and tight.

He took out his cigarette case and offered it to the passenger.

"Smoke?" he queried.

"No, thanks," returned the passenger getting out a pipe. "I always smoke this kind."

They lit up, the tax authority using a long black holder for his cigarette.

"Must be a fascinating business, inventing taxes," observed the passenger.

"My own tax ideas," he answered, "are copyrighted in all countries for my protection. I will allow any government to use my tax ideas on a royalty basis. My terms are ten per cent. of whatever the gross revenue is from any of my copyrighted taxes."

"Amazing!" exclaimed the passenger. "You should get rich."

"No," said the tax authority. "Taxes will keep me poor."

He went on, "Just the other day I got world copyright on the annual marriage license."

"The what," asked the passenger. "Annual marriage license," replied the tax authority.

"You can't be serious."

"But I am," replied the tax authority. "I never was more serious in my life. This is the last plan of the ages. It will bring in billions of dollars and I will get ten cents of every dime almost sleeping and said."

"It would work great," was the reply. "Suppose the cost of marriage license is five dollars. Suppose I lease it to the United States which has 32,000,000 married couples. The gross revenue would be \$160,000,000 a year. Then there's Canada, Mexico and all Central and South America. Think, too, of the territories elsewhere. When you realize that I hold world copyright the plan you must admit that the thing is colossal."

"Let me understand this plan first," said the passenger. "Would a couple come to be married if they didn't pay the tax?"

"Of course not," replied the tax authority. "They'd still be married but they'd owe the government five dollars, and governments know how to collect."

"It's incredible!" breathed the passenger in admiration. "You must have a great head."

"Yes," conceded the tax authority.

The passenger filled his pipe again. "You know," he said, "the only way I see in the contentment is that no government would dare impose such a tax."

"Don't worry," said the tax authority. "The public, so far as taxation goes, is punch drunk. My own public opinion poll shows that."

"Maybe, you're right," said the passenger.

THE ship's alarm bell for East Mountain and her topmost searchlight broke across her up to the wharf.

A police officer in blue with gold braid and there came up the gang plank. He strode straight to the tax authority.

"I have a warrant," he said. "For your last year's dog tax."

"That dog?" asked the tax inventor with a smirk.

"Sure enough, Masterpiece, the wise old dog disappeared. As the dog committed policeman retired the tax inventor turned to the passenger.

He explained, "To make the most of my inventive genius I must not only devise new taxes, but also methods to fight them. In that way I shall collect from governments with one hand and from individuals with the other. My disappearing dog is just an experiment in defence tactics."

## Fur Coats

Should Be Worn By Men As Well As The Greater Sex

If we had any sense at all, we'd have a real understanding of our country, fur coats of all kinds would be the normal winter wear in Canada. But because we cling tenaciously to notions which did not evolve here, fur coats are looked upon by well-to-do women, and rarely worn by men.

It is all very queer and stupid. If we truly understood ourselves as a nation there would be no tax on fur coats; they would be produced in quantity, and we would all have them. But it is still the Canadian way to avoid facing the realities about our country, and to import our ideas from abroad.—Peterborough Examiner.

## SHOULD BE CULTIVATED

Like all mental attitudes, laughter can and should be cultivated. Laughter is a two-edged weapon—valuable as a tonic, but deadly when used as a ridicule. Therefore let us develop as a tone this most contagious and helpful asset in these bad times. Spread happiness. Go on your daily duties seeking to cheer yourself and others. Laugh and the world will laugh with you.

Some species of cactus have green flowers.

## Like Australians

Natives Of Borneo Delighted With Treatment Soldiers Gave Them

Santa Clara, in Borneo, wears a wide-brimmed Australian hat. When the Australians landed, the natives were astonished when they were delighted. Here were white men treated as equals—as free citizens of Borneo.

These white men loved children. Every rugged urchin was their friend. The children loved it, and so did the parents.

An English rubber planter, who revisited an estate he managed before the war, said the natives in a village came to him almost weeping and said:

"Tear, our hearts are sad because we have heard the Australians will soon be going home. They have given us their own food and clothing. They have been kind to our children. We wish them to stay. Please, you know, they are good people. You have influence with the Government. Could you not arrange for the Australians to stay with us?"

Half the native children in Borneo now greet you with "Hullo George," writes Jack Fleming in the Melbourne Herald. Many proudly wear the 8th Division color patch. They ride in jeeps, in trucks and three-ton trucks. Ducks arrange sports for them, with sweets and prizes. The children cluster round Army cookhouses and every cook finds something to give them.

Parents, who cherish their children and they have swarms of them—show their gratitude by doing the troops' washing, bringing them gifts of fruit and eggs, and even the native wine. Often when a Digby leaves they give a farewell party for him.

For years there will be talking in the villages of the white men from Australia in battered slouch hats who were so generous and friendly.

## Luckless Prisoners

Were Beaten By S.N. Guards Until They Fell To Death Over A Cliff

A Mauthausen concentration camp guard told the war crimes tribunal that he saw eight prisoners haul themselves over a 125-foot quarry cliff while S.N. men laughed them. The S.N. guards called this "playing narquois," he said.

The witness was Alois Heidegger, 36-year-old Austrian barber. He said he watched from a guard tower in 1941 while two S.N. men herded the prisoners toward the cliff.

"They beat the prisoners, and I saw that they intended to throw them over the cliff," he said. "Because of the beatings the prisoners threw themselves off the cliff in desperation."

Greenland is a possession of Denmark.

## 1946 Tourist Season

Preparations Are Being Made To Welcome Many To The National Park

Tourist experts are already estimating the approximate number of tourists Canada may receive during 1946—the first full year of post-war travel. Experienced observers at the recent Toronto Conference of the Canadian Association of Tourist and Publicity Bureaus predicted a twenty-million tourist influx this year. Preparations are under way to welcome them to the national parks.

Those who can do so are being urged to bring along their own camping equipment in case they find difficulty in securing accommodation in the national parks, especially at the height of the season. Special facilities are being provided for those visitors who are planning to spend their holidays under canvas or in automobile trailers.

From every part of the country streams of tourists will "fan out" to their favorite haunts, dispersing as they move northward into Canada's great hinterland of lakes and forests and rivers. Most of them will be seeking a spot where they may enjoy for a few days or a few weeks the fresh, unspoiled beauty, far from the roar of traffic and the sound of factory whistles.

Some "things to come" in the realm of tourism may be gleaned from the interest that is being shown in the Canadian Rockies. The event is an exhilarating affair of a sort rarely met in a foreign country. Perhaps unique on this continent, skiing, skating, curling, hockey, tobogganing, sledding and broomball are among the winter sports on this year's agenda. The Carnival, which opened on December 26th, will be extended over a series of weekends, the final events of the winter season taking place on March 2nd with the crowning of the Carnival Queen.

Besides an invigorating program of fun and frolic on ice and snow, many important character traits are being developed including speed skating, ice racing and bobsleds. Hot air balloons are much in evidence this year—swimming in the hot springs, dancing, dinner parties, snowmobiling and amateur theatricals. The new spirit of a nation at peace after five years of grim struggle is being manifested throughout in quite a spontaneous manner. A happy and care-free atmosphere pervades a winter scene of unparalleled beauty. The mood of the year's winter visitors may be described thus: the war is over; a new era of peace has begun; let us welcome it in the true Canadian fashion.

## A Matter Of Diet

Increase Weight And Height Of School Boys In Britain

A doctor has a plan to make Britain's boys bigger. He has found that elementary school lads are smaller than public school boys and is prescribing a better diet.

For three years Dr. H. H. M. Milner, prominent pediatrician of health, has compared weights and heights at his local schools. His report is being studied by all education authorities providing free meals at schools.

Here are some of the doctor's recorded comparisons: Aged nine—Public school boys 11 pounds heavier and three inches taller than elementary school boys. Aged 11—Public school boys 10 pounds heavier and four inches taller. Aged 14—Public school boys 21 pounds more, four inches taller.

Shortages of proteins and calories retarded some of the boys' growth.

One gallon of gasoline, properly mixed with air, is equivalent to 85 pounds of dynamite.

**Here a CWAC**  
**There a CWAC**

**CWAC JOB IS ESSENTIAL**  
Members of the Canadian Women's Army Corps are performing essential duties and their continued service is important during the period of demobilization and reorganization. It was emphasized at M.D. 12 Headquarters, Regina, Sask.

Because CWACs are not to be employed in the interior force, it does not follow that all personnel employed in the wartime army will be out of uniform by the end of March 1946. Many members of the CWACs employed on duties connected with the demobilization program will be required to serve for some months beyond this time, it was stated.

Connecting reports as to the future of the Canadian Women's Army Corps have been a great deal of confusion. The policy for demobilization remains unchanged and personnel will continue to serve and be demobilized under existing regulations.

**CWAC HOLD CHRISTMAS PARTY FOR LONDON CHILDREN**

Members of 42 Coy. CWAC (Overseas) were hosts to nearly 200 London and area youngsters at a Christmas party in December, at their barracks near Lancaster Gate. No effort or expense has been spared by members of the Company to make this party a success for their youthful guests. For the past several weeks the girls have spent their spare time during the evening making presents and decorations. Preparations have been in the hands of three committees. These from the western provinces included: Sgt. M. Cosar, Winnipeg, Cpt. B. Robertson, Hamilton, Sask.; Cpt. M. G. Smith, Saskatoon, Sask.; Sgt. D. M. Burton, Saskatoon, Sask.; Pte. E. A. Bennett, Waterloo Park, Alta.; Lt. Col. J. M. Whitney, Valjean, Sask.; Sgt. J. B. Scott, Calgary, Alta.

**CWAC OFFERED ROLE IN PLAY**  
An Alberta member of the Canadian Women's Army Corps has been playing overseas may appear on the main stage in one of next season's plays. She is Pte. Adele Chikhalik, daughter of Mr. and Mrs. Sam Chikhalik of Sherbrooke, Alta. The pretty, dark haired private has been interviewed by Pte. Shepherd, a known London producer, for a part in one of his plays for the coming year. Pte. Chikhalik was in the army early in the war, and after serving in various parts of the Dominion, she returned about three months ago. She is reported to have attended Western Canada High School, where she took part in dramatics. A member of a patriotic family, she has four brothers and a sister in the armed forces.

**WEDDING BELLS**  
A military wedding took place in St. George's Chapel, No. 12 District Depot, Regina, on January 2, 1946, when Pte. Margaret Lucy Kieck, CWAC, of Victoria, B.C., became the bride of Tpr. Alexander Baines, Melville, Sask. Capt. F. M. Joy, army chaplain, officiated. Bridal attendants were Sgt. Dorcas Washington and Tpr. Dean Armstrong.

**QUOTA CLUB ENTERTAIN CWACs**  
A number of CWACs were entertained by the Quota Club Christmas party held in the Drake Hotel, Regina, Sask. Minnie Foster, Regina, entertained the girls. Santa Claus candles and holy lent a festive air. A table covered by a large red tree around which was piled gifts for all. Acting as Santa Claus, Mrs. F. Burch distributed a gift to each one present. In charge of arrangements were Mrs. L. Kirkbride, Mrs. Burch, Mrs. D. Wallis and Miss Marjorie Lawson.

**THE MAGNETIC POLE**  
The magnetic pole which is on Canadian territory has once again shifted its position. Observations numbering thirty thousand taken earlier this year by the Royal Air Force pilots who flew across the geographical North Pole, have shown that the magnetic pole now lies three hundred miles to the north-northwest of its accepted position in the Boothia peninsula.—Exchange.

Bolivia has two capitals. Sucre is the real and legal capital, but La Paz is so much more important, commercially, and more readily accessible.

The national congress meets there.

S. F. TORRANCE  
CARBON — ALTA.

It has taken plenty of physical  
courage to win the fight for free-  
dom. It will take plenty of moral  
courage to make the best use of  
what we've won.

### CANDY COMES FROM CUBA

Hard boiled candy imported  
from Cuba will sell to Canadian  
consumers at 25 to 31 cents per  
pound, through order of the  
Prison Board now effective. These  
prices are in line with comparable  
products manufactured in Canada.  
In some cases they slightly lower  
present price levels.

Application to import candy  
from Cuba was received by the  
sugar administration up to Janu-  
ary 24, but applicants were warn-  
ed that because Canadian quotas  
for this year are lower than 1945,  
there may be a reduction in the  
amounts supplied for.

A change of hands will do more  
to give a nation's life than any  
change of system.

### ALBERTA FARMERS' UNION

Prisoners, get wise to yourself  
and organize now before it is too  
late. The rate of two cents on the  
page of gasoline is not offsetting  
the far western farmers and if we  
were stronger we may have stopped  
this. Some of our prominent  
M.P.s are saying it is just selling  
the western farmers down the  
river as it is not necessary for the  
oil companies to get this as they  
are already making plenty out of  
the farmers. The only way to be  
able to get anything done is to do  
as Mr. Mackenzie said in Calgary  
not long ago as prior to the time  
to organize the farmers 100 per-  
cent and then the government will  
have to take notice and do some-  
thing about any resolutions we  
send in instead of just pushing  
everything aside and doing as they  
like with us.

C. Cava, Sec. A.F.U.

### ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Italian wheat import requirements  
this season are estimated at  
about 82 million bushels, but it is  
thought unlikely that actual im-  
ports can approach that level.  
Tungsten is reported to confer a  
poor wheat yield this season—  
China is reported to be harvesting  
a smaller grain crop than last  
year.

South Africa recently received  
severe rains which should save a  
large portion of the corn crop  
from failure. The winter wheat  
area in south-eastern portions of  
European Russia is reported to  
have been considerably increased  
this year—Argentina is now using  
less corn for fuel because of larger  
imports of coal and petroleum.

### OPENING OF LEGISLATURE

The pomp and tradition of pre-  
war opening of legislatures will be  
witnessed once again when the  
second session of the tenth legis-  
lature opens today. During the  
ceremonies there will be a fifteen-  
minute salute, a toast of honor will  
be supplied by the COTC detachment  
from the University of Alberta,  
while senior officers of the  
services and police officers will  
form the honorary escort for the  
Honourable Governor into the legis-  
lative chamber. Capt. A. R. Killies  
is the governor's side-de-  
camp. Mr. C. V. Deane his sec-  
retary. The speech from the throne  
continuing an outline of the legis-  
lation the government intends to  
introduce will be read by Mr.  
Honour after taking his place in  
the legislative chamber.

### GOVERNMENT SPENDS OVER 300 PRICE CEILINGS

In keeping with the government  
policy of gradual decontrol, the  
Prime Minister, Mr. Mackenzie  
King and his Finance  
Minister, Mr. Bennett, have announced  
the suspension of price ceilings on  
more than 300 items of consumer  
commodities, in which is termed  
the "first experimental step" back  
to normal living.

Both Mr. Bennett and Prime  
Minister King have announced  
the suspension of price ceilings on  
more than 300 items of consumer  
commodities, in which is termed  
the "first experimental step" back  
to normal living.

Practically all the items listed  
are in the luxury class and there-  
fore, won't seriously affect the cost  
of living.

The list of some of the more im-  
portant articles suspended include  
drugs, cosmetics, tobacco products,  
jewelry, books, games, novelties,  
and women's millinery.

The suspensions of ceilings ap-  
ply to imported goods, as well as  
to domestic goods.
